Introducing the Redesigned BEVmax Classic

Only BeVmax Classic has been designed to enhance the consumer experience and meet the operational needs of bottlers and vending operators.

- Same footprint as a standard stack unit
- Increased sales vs. stack units
- Easier to handle and transport
- Superior energy savings exceeds both Energy Star 4.0 standards with a green, environmentally friendly R290 refrigerant system
- One platform - two sizes - common parts
- Meets ADA and ANSI requirements

- The V21 Vendor is a low cost, energy efficient stack vendors. Standard Features include LED lights, curved sign face, sleek selection buttons, and T-Handle with Quicker Lock.
- The V21 stack allows for maximum flexibility during product loading. Most products can be loaded caps to back, butt-to butt, or in combination.
- Full function MDB controller with DEX/UCS, recycler and wireless telemetry compatibility.
- Energy Management features include real-time clock, lighting and refrigeration controls, cyclopentane injected foam insulation (HFC free) and Use of Natural Refrigerant R290 (propane) with a GWP of 3.
- The V21 uses 24 volt, DC motors that are installed with only two screws for easy servicing. There are no micro switches or timing cams.
- Slide out loading rack allows for greater access to the columns for two handed product loading.
- The time tested V21 product delivery system design ensures reliable vends due to reduced sensitivity to package dimensions.
- The V21's low friction coated vend chute provides smooth product delivery.
- ADA compliant, UL certified, ENERGY STAR certified, meets or exceeds DOE & EPA requirements, suitable for indoor or outdoor locations.

FREQUENTLY ASKED QUESTIONS

What are the requirements to install a vending machine in my business?

In order for us to maintain service at a location, there must be at least 20 full-time employees or high foot traffic near the vending machine. For hotels, a minimum of 30 guest rooms is required. Apartment complexes need 100+ units for us to install a vending machine.

How much will it cost me to install a vending machine in my business?

All vending machines and services provided by J's Vending Machine LLC are free. The machines are installed, stocked, and repaired at no cost to your business.

How long does it take to receive a vending machine?

It typically takes 15–20 business days to install a vending machine.

Who chooses the products placed in my vending machines?

You will be able to choose from our list of products which includes the most popular flavors in your market area. We also accommodate special requests to fit your needs.

How often will my vending machine be serviced?

Vending machines are filled depending on their sales volume. The more a machine sells, the more frequently it will be stocked. Most machines are filled once per week, but sometimes more or less.

What happens if my vending machine needs repair?

Should you have a repair issue, our customer service team can be contacted by our email address or phone number. We cover all repairs and costs.
